Dream Castle

One of the future great commercials and show flowers. Spikes are always straight, florets perfectly placed and perfectly attached. Can hold 10 florets open in perfect condition. The wide open ruffled florets are clean medium light pink blending to lighter heart. Fine tall plants with long flower heads of 18 or more buds. Four and one half inch florets. Midseason bloomer, good propagator and 100 per cent cutter. Has all the qualities required of a good commercial and all growers will eventually grow DREAM CASTLE. Those who get in on this now stand a good chance to make some money. If you found Stoplight a good red, you will find Dream Castle a good pink. Stock is still in small supply and not too much will be released. Orders will be filled in order of booking.

STOPLIGHT

If you grow gladiolus commercially and are not growing STOPLIGHT you are passing up one of the very best commercial bright reds.

It has all qualities required of a **FIRST CLASS COMMERCIAL**. Always straight. Always perfectly placed. Heavy propagator. Heat resistant. Brilliant ruffled red florets. Heavy substance. Midseason bloomer. Good spikes from small bulbs and even bulblets. 100% cutter.

Present prices on STOPLIGHT bulbs in the smaller sizes, (which will produce good quality saleable spikes), are low enough to enable you to make a profit the first year and still have your stock for the future. This is a first class florists' variety. Leading growers are growing it in quantity and buying more.
